

Malory

Secret Love

10 years after their debut album "Not Here – Not Now" was released – an album still highly valued in the shoegaze scene – Malory are back once again! January 2010 will see the release of their 4th Album "Pearl Diver".

The phrase "the prophet in his own country, has nothing" seems to apply quite aptly to Malory, who have seen an ever increasing appreciation and love for their unique sound expand on a larger scale abroad than the dedicated fanbase in their home country of Germany.

No surprise then that they released two albums in the US, one single in the UK plus many appearances on international compilations, such as the in 2007 released compilation The Secret Garden Vol.1 on Geoff Barrow's (**Portishead**) label Invada Records in Bristol.

Having toured the US, Canada and the UK in the past, it seems natural for Malory to once again seek the release of their latest work abroad.

Malory will be playing Club AC30 in London on the 21st October with **Epic45** and 22nd October with **Ulrich Schnauss**

"Secret Love" is the first single taken from "Pearl Diver", and is backed with "The Signs".

This 7" is released on Club AC30
